

Clip-on Aerodyne Birdguard Set

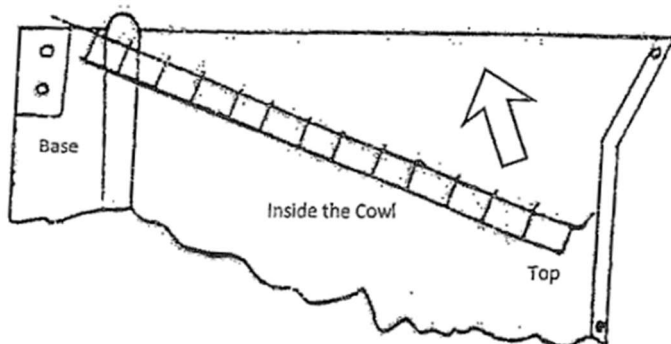

*Prevents Bird & Debris Entry
Simple to Fit – No Tools Required*

For use on Hook, Sleeve and Strap Models:

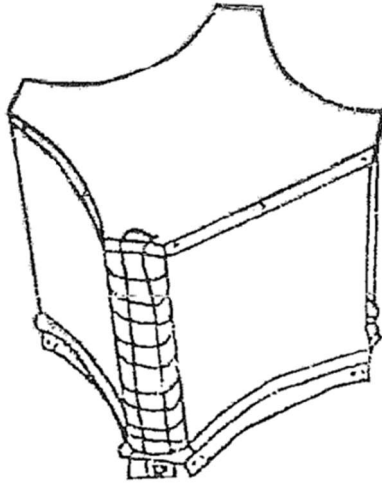

1. a) Hook Model – remove hook bolts
b) Sleeve Model – remove sleeves
c) Strap Model – remove nothing.
2. Bend tag up, at one end only, through 90 degrees.

3. Insert mesh at an angle from inside the cowl and push sloping sides of mesh against the sloping side panels of the cowl, with the bottom of the mesh guard being on the outside of the cowl.

4. *a)* Hook Model: re-fit the hook bolts with washer and wing nuts through the lower tag hole.
b) Sleeve Model: re-fit sleeves as on cowl instructions.
c) Strap Model: nothing required.
5. Bend upper tag hard over the top of the cowl.

Shouting quality from the rooftops
